(1) comparisons
best time / B1(n)
worst time / W1(n)
average time / A1(n)
ns per counted operation
input size n
(2) loop increments
worst time / W2(n)
average time / A2(n)
ns per counted operation
input size n
(3) assignments
best time / B3(n)
worst time / W3(n)
average time / A3(n)
ns per counted operation
input size n
(4) assignments
best time / B4(n)
worst time / W4(n)
average time / A4(n)
ns per counted operation
input size n
